Hoogskool voor du Kunst

Ina Boudier Bakkerlaan, Utrecht, the Netherlands

3rd year of degree studying graphic design in the Netherlands. The year included a module of PBL. Problem based learning (PBL) is an instructional method that challenges students to learn to learn, working cooperatively in groups to seek solutions to real world problems. These problems are used to engage students' curiosity and initiate learning the subject matter. PBL prepares students to think critically and analytically, and to find and use appropriate learning resources
